Aviator Plus 12' Abbreviated handle

The Aviator was conceived to give more choice. It does not replace the Torrix but offers more options. The two 12' rods sit either side of the ever popular Torrix 12 3.25

The **Plus** is a little more powerful and the **Flex** has a little more playing action

The **12'6 Plus** was conceived as an upgrade path from the best-selling **Torrix 12'6 TE**. Just a hint more power but with new tapers to retain playing ability and making it easy to load

The 13' **Aviator Plus** is a distance rod with a lovely easy casting action, whilst the new **Aviator 13' TE** is a beast designed with no compromise to give the ultimate distance capability

Cerbera- *A compact range of two models offering great value without compromise*

CER1230	12	3	Cerbera
CER12325	12	3.25	Cerbera
